STOCK and SON'S SOIL-PAN SERVICE-BOX.

The object of this contrivance is to facilitate the introduction of many Improvements into the dwellings of the working classes, by the adoption of such an arrangement of cheap soil-pan apparatus as will enable the "constant supply" system of water service to be made available for the removal of the refuse matter by preventing the enormous waste of water in places of this description, to which water companies now so strongly and so properly object. By the use of this contrivance an ample supply of water is obtained, without the possibility of its being wasted by propping the valve, weighting the lever, or by other means. It is so constructed that, so long as the cistern-valve remains open, a further supply cannot enter the cistern from the main.—Drawings and description may be obtained from STOCK and SON, manufacturers of plumbers' brass-work, fire-fittings, and church furniture, in iron and brass, Tenpleroad, Birmingham.

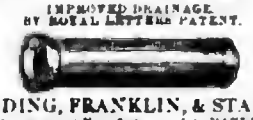
IMPROVED DRAINAGE.
BY ROYAL LETTERS PATENT.



STANDING, FRANKLIN, & STANDING, Stone Merchants and Manufacturers of the PATENT GLAZED STONE WARE SEWAGE PIPE, Offices &c. Cornhill, entrance in Change-alley, Factory, Brunton's Wharf, Commercial-road, Limehouse.

By employing their patent machinery, S. F. and S. are enabled to produce a pipe for sewage and other purposes in every way far superior to those made by any other process, but more especially in its qualities as absolutely essential to a perfect, and cleanly mode of drainage. From the great and uniform amount of pressure and power in construction of the machinery still using the air to escape, used in manufacturing, their pipes are entirely free from its bubbles, proving their greater strength, durability, and ensuring preventing the otherwise prevalent leakages; they are exact size-either on the inside, insuring a perfect passage for the sewage, and preventing any deposit.

Specimens may be seen at the office, 31, Cornhill, where prices, &c., may be obtained, and licenses granted for the use of the patent machine.
